

Orpheus - Sara Bareilles

D
Come by the fire, lay down your head

My love, I see you're growing tired

So set the bad day by the bed
A
And rest a while, your eyes can close
Bm G
You don't have to do a thing but listen to me sing
D
I know you miss the world, the one you knew

The one where everything made sense

Because you didnt know the truth that's how it works A
Bm
'Til the bottom drops out and we learn
G G
We're all just hunters seeking solid ground

[Chorus]-----
D F#m
Don't stop trying to find me here amidst the chaos
Bm
Though I know it's blinding there's a way out
G A D
Say out loud, we will not give up on love now
F#m
No fear, don't you turn like Orpheus, just stay here
Bm E
Hold me in the dark and when the day appears
Asus4 A D
We'll say we did not give up on love today

Dsus4 D Dsus4 D Dsus4

I'll show you good, restore your faith
D Dsus4 D Dsus4
Ill try & somehow make a meanin o'th'poison in this place
A Asus4 A Asus4
Convince you, love, don't breathe it in

You were written in the stars that we are swimming in
D Dsus4 D Dsus4
And it has no name, no guarantee
D Dsus4 D

Its just th'promise of a day I no that some may never see
A Asus4 A Asus4
But that's enough, if the bottom drops out

I hope my love was someone else's solid ground
