

Solstice

E Dadd2
One little light out in the forest
E Dadd2
One little light up on the hill
E Dadd2
Every winter on the solstice
A G E
There's a spark that marks the end of winter's chill

E Dadd2
Our hopes and dreams are like a candle
E Dadd2
A candle lantern in the snow
E Dadd2
But they will never fly, they can't grow
A G E
Till we learn how to release them and let go

E Bm9
You are smaller than you imagine
D A E
You are a universe unto ourselves
E Bm9
You are binary stars now
D A E
From a distance all you see is a brighter glow

E Dadd2
Two little lights above the mantle.
E Dadd2
For a lost soul to see

E Dadd2
It's just a flicker of a candle
A G E
And it's reflection on the window through the trees

E Bm9
You shine your light into the darkness
D A E
You bring it with you wherever you go
E Dadd2
It moves out in all directions
A G E
Just remember to let it shine into your soul

E Bm9
Dark was the night, Cold was the ground
D A E
19 years upon this day
E Bm9
We turned around and saw ourselves for the first time
D A E
A pale blue dot 4 billion miles away

E Dadd2
When Winter's night was at it's darkest
E Dadd2
When hopes and dreams were left unfulfilled
E Dadd2
You climbed your hill and lit a candle
A G E
You know that I can see it shining still
